DETAILED ACTION

Election/Restrictions

1. This application contains claims 4, 10, 11, 18, 24, 25 and 33-50, drawn to an invention nonelected with traverse in Paper No. 04/27/2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-3, 5-9, 12-17, 19-23 and 26-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Moreau et al., for reason cited in the previous action.
4. Claims 1-3, 5-9, 12-17, 19-23 and 26-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Anderson et al., for reason cited in the previous action.

Response to Arguments

5. Applicant's arguments filed 09/29/2006 have been fully considered but they are not persuasive.

Art Unit: 1713

6. Applicant argues that Moreau does not disclose the use of a set retarder in the combination because "carboxylic acid salts are not set retarders." However applicant defines the set retarding additives as including "hydroxylated carboxylic acids, borax, gluconic, tartaric and other organic acids (all of which are carboxylic acids) and their corresponding salts". Thus, contrary to applicant arguments, carboxylic acids and their salts are defined as set retarders. The fact that they may also function as accelerators does not change applicant's definition of them as the claimed set retarders. It is noted that the fumaric, itaconic and malonic salts recited in dependent claim 12 are also carboxylic acid salts.

7. Regarding the solids contents in Anderson et al., applicant is directed to Table A (page 8), which teaches 20-30% of the polycarboxylate dispersant, 30-50% polyhydroxylalkylamine and 10-20% of the set retarder, all of which are consistent with applicant's claimed ranges of 5-80%, 0.5-40% and 0.5-40%, respectively.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1713

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
